

Swagger v5.0

V5.0 API Docs

GET https://api.1inch.dev/portfolio/portfolio/v5.0/general/current_value

Get current portfolio value breakdown

Get current portfolio value breakdown: by address, by category, by protocol group, by chain

Network

Ethereum

Parameters

addresses array * (query)

string

Example:

0xd470055c6189b921c4d44b3d277ad868f79c0f75

chain_id integer (query)

1

use_cache boolean (query)

Get response from cache

swagger.response

Code: 200

Successful Response

Schema:

- ✓ ResponseEnvelope_CurrentValueResponse_ object
 - ✓ result * CurrentValueResponse object
 - total * number
 - ✓ by_address * array
 - ✓ items AddressValue object
 - value_usd * number
 - address * string
 - ✓ by_category * array
 - ✓ items CategoryValue object

- value_usd * number
 - category_id * string
 - category_name * string
- by_protocol_group * array
 - items ProtocolGroupValue object
 - value_usd * number
 - protocol_group_id * string
 - protocol_group_name * string
- by_chain * array
 - items ChainValue object
 - value_usd * number
 - chain_id * integer
 - chain_name * string
- meta any
- anyOf[0] ResponseMeta object
 - cached_at any
 - anyOf[0] integer
 - anyOf[1] null
 - system any
 - anyOf[0] ProcessingInfo object
 - click_time number
 - node_time number
 - microservices_time number
 - redis_time number
 - total_time number
 - anyOf[1] null
 - anyOf[1] null

Code: 422

Validation Error

Schema:

- HTTPValidationError object
 - detail array
 - items ValidationError object
 - loc * array
 - items any
 - anyOf[0] string
 - anyOf[1] integer
 - msg * string
 - type * string

Authorization - API KEY

API KEY

[Sign in](#) for automatic API key authentication.

Try it

```
const axios = require("axios");

async function httpCall() {
  const url =
    "https://api.1inch.dev/portfolio/portfolio/v5.0/general/current_value";

  const config = {
    headers: undefined,
    params: {
      chain_id: "1",
    },
    paramsSerializer: {
      indexes: null,
    },
  };

  try {
    const response = await axios.get(url, config);
    console.log(response.data);
  } catch (error) {
```

Response

Click the try-it button to test your API call and see the real-time response right here.
