

Migration from v5.2 to v6.0

Tip: If you are using the fusion-sdk, make sure you are using the latest version: [fusion-sdk releases](#)

Following changes must be done to migrate from v5.2 to v6.0.

Parameter change for /quote

Response

Renaming of parameter:

fromToken -> srcToken

toToken -> dstToken

toAmount -> dstAmount

Parameter change for /swap

Added new parameter optional query params:

usePermit2: boolean - use Permit2 for approval

Response:

Renaming of parameter:

fromToken -> srcToken

toToken -> dstToken

toAmount -> dstAmount
