

ERC721ProxySafe

Quick links

[Functions](#)[Errors](#)

Functions

constructor

```
constructor(address _immutableOwner) public
```

func_60iHVgK

```
function func_60iHVgK(address from, address to, uint256 tokenId, contract IERC721 token) external
```

Proxy transfer method for `IERC721.transferFrom`. Selector must match `IERC20.transferFrom`. Note that `amount` is unused for security reasons to prevent unintended ERC-721 token sale via partial fill

Errors

ERC721ProxySafeBadSelector

```
error ERC721ProxySafeBadSelector()
```
