cURL

Go

```
const axios = require("axios");

async function httpCall() {
  const url =
    "https://api.1inch.dev/portfolio/portfolio/v4/general/current_value";

  const config = {
    headers: undefined,
    params: {
      chain_id: "1",
    },
    paramsSerializer: {
      indexes: null,
    },
  };

  try {
    const response = await axios.get(url, config);
    console.log(response.data);
  } catch (error) {
```

Response

Click the try-it button to test your API call and see the real-time response right here.
