  - address \* string
  - schema\_name \* string

Code: 400

Bad Request.

Code: 401

Unauthorized.

Code: 500

Internal server error.

## Authorization - API KEY

API KEY

[Sign in](#) for automatic API key authentication.

Try it

NodeJS

Python

cURL

Go

```
const axios = require("axios");

async function httpCall() {
  const url = "https://api.1inch.dev/nft/v2/contract";

  const config = {
    headers: undefined,
    params: {
      chainId: "1",
    },
    paramsSerializer: {
      indexes: null,
    },
  };

  try {
    const response = await axios.get(url, config);
    console.log(response.data);
  }
}
```

```
} catch (error) {  
  console.error(error);  
}
```

## Response

Click the try-it button to test your API call and see the real-time response right here.
