

IPermit2WitnessTransferFrom

[Types](#)[Functions](#)

Types

TokenPermissions

```
struct TokenPermissions {  
    address token;  
    uint256 amount;  
}
```

PermitTransferFrom

```
struct PermitTransferFrom {  
    struct IPermit2WitnessTransferFrom.TokenPermissions permitted;  
    uint256 nonce;  
    uint256 deadline;  
}
```

SignatureTransferDetails

```
struct SignatureTransferDetails {  
    address to;  
    uint256 requestedAmount;  
}
```

Functions

permitWitnessTransferFrom

```
function permitWitnessTransferFrom(struct IPermit2WitnessTransferFrom.Permitted permit, struct IPermit2WitnessTransferFrom.SignatureTransferDetails transferDetails, address owner, bytes32 witness, string w
```
