    - totalPages \* **number**
    - currentPage \* **number**

- ▼ items \* array
  - ▼ items ActiveOrdersOutput object
    - orderHash \* string
    - signature \* string
    - deadline \* number
    - auctionStartDate \* number
    - auctionEndDate \* number
    - quoteld \* string
    - remainingMakerAmount \* string
    - makerBalance \* string
    - makerAllowance \* string
    - isMakerContract \* boolean
    - extension \* string
    - srcChainId \* number
    - dstChainId \* number
  - ▼ order \* any
    - ▼ allOf[0] CrossChainOrderDto object
      - salt \* string
      - maker \* string
      - receiver \* string
      - makerAsset \* string
      - takerAsset \* string
      - makingAmount \* string
      - takingAmount \* string
      - makerTraits \* string
  - ▼ secretHashes array
    - items array
  - ▼ fills \* array
    - items string

## Authorization - API KEY

API KEY

[Sign in](#) for automatic API key authentication.

Try it

NodeJS   Python   cURL   Go

```
const axios = require("axios");

async function httpCall() {
  const url = "https://api.1inch.dev/fusion-plus/orders/v1.0/order/active";

  const config = {
    headers: undefined,
    params: {},
    paramsSerializer: {
      indexes: null,
    },
  };
};
```

```
try {  
  const response = await axios.get(url, config);  
  console.log(response.data);  
} catch (error) {  
  console.error(error);  
}
```
