Migration from v4 to v5.0

Key Difference between V4 and V5

V5 introduces a fundamental separation between `snapshot` and `metrics`:

- `snapshot` — a state at a specific point in time
- `metrics` — historical metrics over a selected time range (e.g. 1day, 1week)

Migration Guide: From `/v4` to `/v5.0`

General

V4 Endpoint	V5.0 Endpoint	Notes
`/portfolio/v4/general/is_available`	`/portfolio/v5.0/general/status`	Renamed
`/portfolio/v4/general/supported_chains`	`/portfolio/v5.0/general/supported_chains`	Same functionality
`/portfolio/v4/general/supported_protocols`	`/portfolio/v5.0/general/supported_protocols`	Same functionality
`/portfolio/v4/general/current_value`	`/portfolio/v5.0/general/current_value`	Wrapped response
`/portfolio/v4/general/profit_and_loss`	Removed → see `/metrics`	Moved to metrics
`/portfolio/v4/general/value_chart`	`/portfolio/v5.0/general/chart`	Renamed
(none)	`/portfolio/v5.0/general/address_check`	New endpoint

Tokens

V4 Endpoint	V5.0 Endpoint	Notes
`/portfolio/v4/overview/erc20/current_value`	`/portfolio/v5.0/tokens/snapshot`	Snapshot replaces current value
`/portfolio/v4/overview/erc20/profit_and_loss`	`/portfolio/v5.0/tokens/metrics`	Historical metrics
`/portfolio/v4/overview/erc20/details`	Covered by snapshot + metrics	Merged into `snapshot` and `metrics`

Protocols

V4 Endpoint	V5.0 Endpoint	Notes
`/portfolio/v4/overview/protocols/current_value`	`/portfolio/v5.0/protocols/snapshot`	Snapshot replaces current value
`/portfolio/v4/overview/protocols/profit_and_loss`	`/portfolio/v5.0/protocols/metrics`	Historical metrics
`/portfolio/v4/overview/protocols/details`	Covered by snapshot + metrics	Merged into `snapshot` and `metrics`
